

AQUASWITCH-24

Item Number 4678546

A reliable switch for changing water levels. The electronic sensor sends a signal to valves, pumps and alarm systems when the water level exceeds a defined level.

- Sensitive electronic sensor technology
- No blocking of floats by dust, insects or other obstacles

Technical Data

Material	ABS
Colour	yellow (RAL 1023)
RoHS Conformity	1
RoHS Conformity	Yes
Operating Temperature Range	0 – 70 °C
Water Temperature Range	0 – 50 °C
Voltage	24VDCAC
Frequency	50Hz/60Hz
Ingression Protection	IPX7
Cable Length	45 cm
Alarm Relay	5A 250VAC 1250VA
Water Level	10 mm nom., 6 mm min., 14 mm max.
Packaging	Blister
